### Custom-designed stamps – made in minutes

The Digistamp is the easy and simple way to produce a personalised stamp – quickly.

- Turn signatures, graphics, text, photos and logos into pre-inked stamps
- Available in 11 different sizes and 3 ink colours
- Perfect for the office or home
- Virtually anything you can create on your computer can be put on a stamp

**digistamp**

18 TYPESTYLES, 3 ALIGNMENTS, 11 SIZES, 15 FRAME STYLES, 300 CLIP-ART IMAGES AND A THOUSAND USES

Pre-inked stamps are a great way of creating your own personalised message or impression. The Digistamp is so versatile that almost anything that can be created on a computer screen can be reproduced on a stamp. So if you need a logo, a photograph, text messages or even your signature, we can bring it to clear, crisp life on your own pre-inked stamp – which all makes Digistamps ideal for small offices and businesses, or for those working from home. Or it can just be a fun item for the family!

**Create a lasting impression**

Any stamp we supply to you with will be of a high print quality (600dpi), which ensures that every stamp will produce clear, clean, crisp impressions every time. In fact, your personalised Digistamp will reproduce 10,000 print-quality impressions before it needs re-inking – and 50,000 impressions in its lifetime. The stamp's durable rubber surface helps to extend its life. There are no fewer than 11 sizes to choose from – and you can print in black, blue or red. The ink is fast-drying so there's no smudging. Also, each stamp comes with a dust cover, so the surface is protected, allowing you to carry the stamp cleanly and safely.

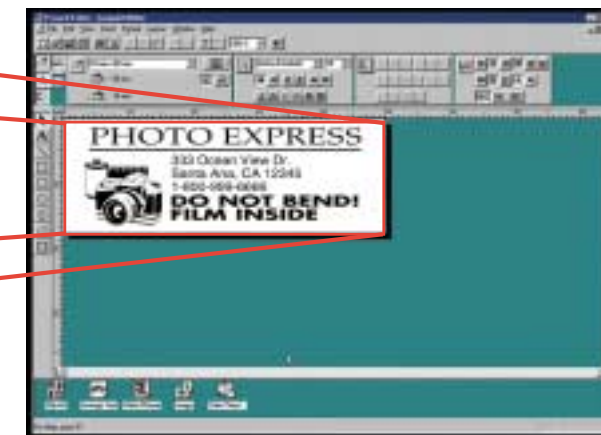

**IMPORTANT:**

ALTHOUGH STAMPS CAN BE MADE IN MINUTES, IT MAY TAKE UPTO 2 HOURS BEFORE THEY ARE READY TO USE. THIS IS CALLED THE 'CURE TIME' OR THE RESTING TIME THE STAMP REQUIRES AFTER IT IS CREATED AND BEFORE IT BECOMES READY TO USE. THE "CURE TIME" WILL VARY SLIGHTLY DEPENDING ON THE STAMP COLOUR, SIZE AND ROOM TEMPERATURE. TO SHORTEN THIS TIME, KEEP STAMP UPRIGHT AND IN A WARM ENVIRONMENT.

- Ideal for:
- Business
- Library
- School
- Hospital
- Retail
- Industrial
- Personal

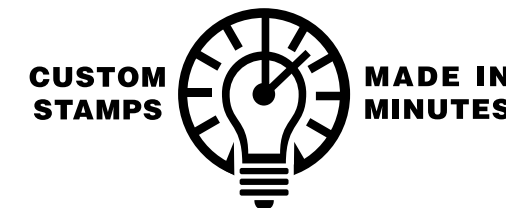

Digistamp availability varies depending on service representatives.

**IMPRESSIONS**

**1 Select stamp size**

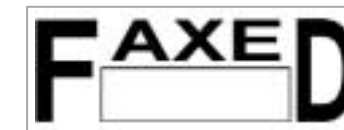

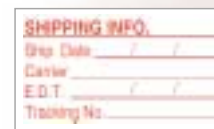

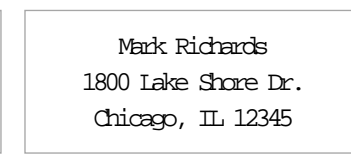

First, select the size of stamp you require. We have 11 different sizes to choose from – 12 x 12 mm to 40 x 90 mm. Then choose the type of font you think reflects your business, service or personal requirements. Our software provides more than 11 different fonts. You can ask our store if StampCreator has any additional fonts available.

**2 Choose text**

Next choose how to align your chosen text. You have three basic choices – text left, text centred or text right. Your text then needs to be framed in a suitable and eye-catching way. With more than 30 different framing designs to choose from, you are sure to find the one that will do justice to your stamp message or image.

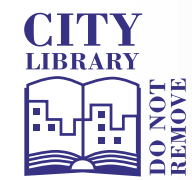

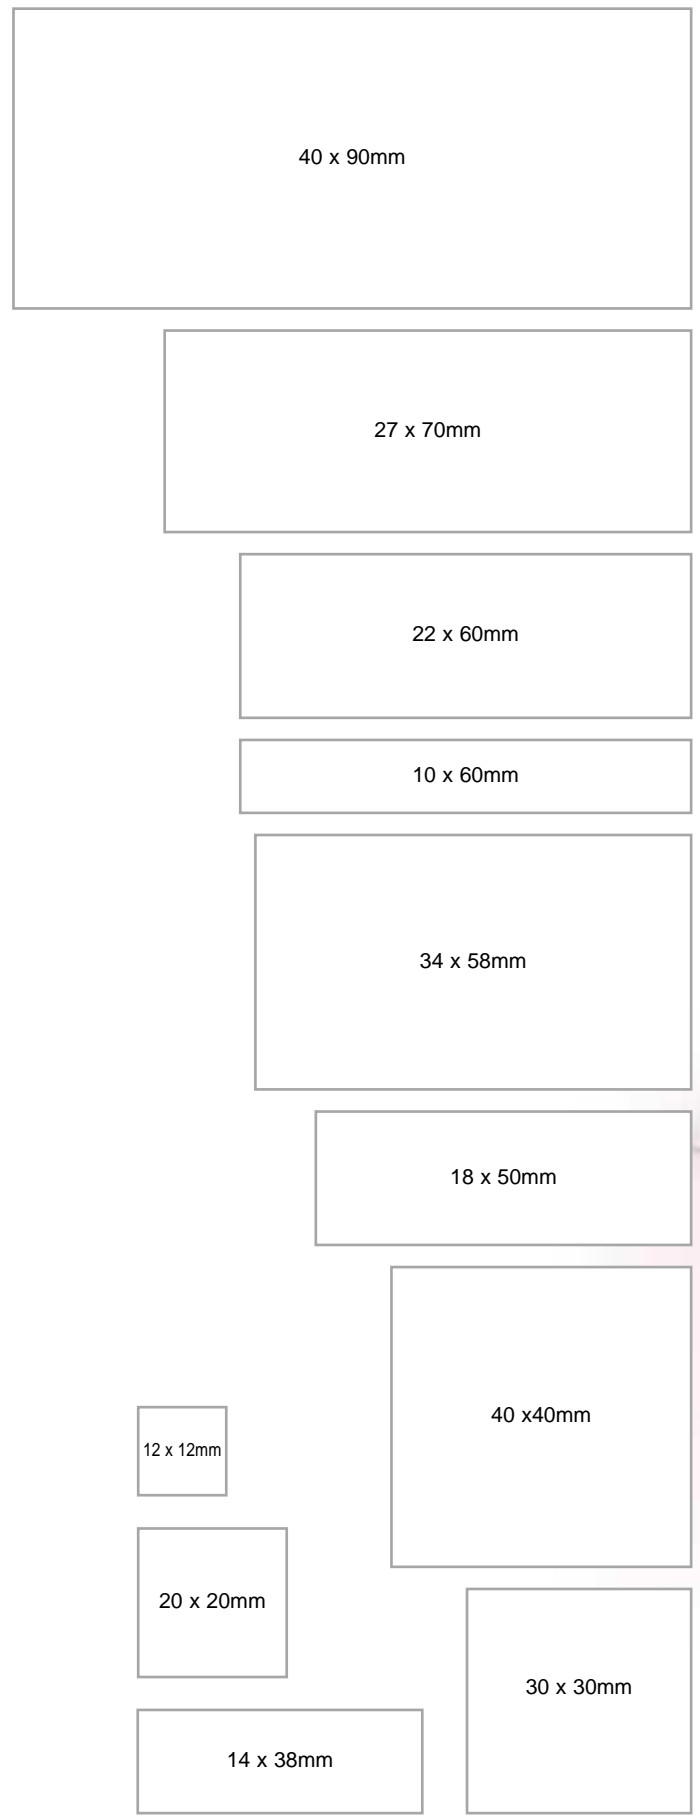

**3 Choose a graphic**

If your stamp needs a graphic we have an excellent clip-art section with a huge selection of relevant graphic images. To be even more adventurous we can import images that have been captured by a scanner, digital camera or from any website. Photos or company logos can also be made into stamps. Finally, you need to choose your stamp's colour – black, red or blue.

**digistamp**

11 different stamps for different uses

18 type styles

The typeface you choose will say a lot about you, your company or the function that the stamp has to perform. That's why picking the right one is so important.

Your biggest problem is the wide choice of typefaces - from the subtle and appealing, to the bold and challenging. However, help is always on hand in store.
